## REACH UPDATE

Gulbrandsen realizes the importance of fulfilling the REACH requirements from our customer as well as regulatory & environmental perspective. We have been actively working on REACH compliance related requirements, and would like to share the below updates:

- Gulbrandsen has appointed an OR (Only Representative) based out of UK
- Gulbrandsen has pre-registered substances as per REACH guidelines
- Gulbrandsen is participating in various product specific consortia / SIEF's (Substance Information Exchange Forum) for substances due for registration by November 2010
- Looking actively to either participate or form SIEF's / consortia for those substances for which SIEF's are not yet formed, but are due for registration by 2010 or even 2013
- We've dedicated resources focused on REACH compliance and welcome any suggestions or request for assistance

If you are a customer or a company looking to work with us on a particular substance registration or wish to offer your services related to REACH compliance, please contact [reach@gulbrandsen.com](mailto:reach@gulbrandsen.com) or **+91.99250.49053**.
